# ACTION 5%™ SEED TREATMENT

## INCREASE GERMINATION IN SALINE SOILS

Action 5%™ is an extremely soluble source of liquid calcium (Ca) and is designed to increase the plant's ability to handle stress conditions, such as low moisture or soil salinity. Action 5%™ enhances root development which leads to an overall healthier plant.

### PRODUCT BENEFITS:

- Creates a buffer to protect seed from soil salinity
- Improves uniform emergence
- Increases germination in areas with salinity issues

**For Use On:** Barley, Canola, Corn, Lentils, Oats, Peas, Soybeans, & Wheat

## ACTIVE INGREDIENTS

Calcium (Ca) ..... 5.000%  
with Growth Enhancing Co-Factors

## RECOMMENDED FIELD APPLICATIONS

**SEED TREATMENT:** 125 ml per 100lbs of seed

Action 5%™ may be applied as a seed treatment by commercial seed treatment facilities or on-farm treating with conventional seed treating equipment which can accurately control application rates.

Action 5%™ is compatible with most commercial seed treatments and inoculants. Please consult the Stoller Product Compatibility Charts, available at [www.stollerenterprises.ca](http://www.stollerenterprises.ca), or speak with your local Stoller Territory Manager before mixing.

Allow appropriate drying time before planting. Seed can be treated up to 120 days before planting.

## PRODUCT SIZE

**CASE:** 2 x 10L jugs

**TOTE:** 1000L
